Use this sheet for routine (non-emergency) nets to record the data and to keep for your records. **DO NOT DISCARD THIS SHEET IF IT WAS AN ACTUAL EMERGENCY NET.** Rather, hand-deliver it to the EC or other person he designates. The TIME and LOCATION/WX columns need not be used for routine nets; in this case, you can use the TIME column to record an **X** for those who checked in (and **NCO** for you as Net Control Operator). Please email a list of the member and guest check-ins for all nets to WB9RQR: skaplan4@wi.rr.com
